NEW iPhone and iPad applications

We are delighted to offer an updated Priority Pass iPhone and new iPad application which are both free to download at the iTunes App Store.

Besides offering users the chance to search our database of over 600 airport VIP lounges, using a scrollable list or by using a search field, there are also advanced features available such as 'Lounge Images', 'Favorites', 'Recent Searches', and 'Nearest Lounge'. Using GPS technology, this handy tool cleverly works out your current location and finds you the nearest lounge available to Priority Pass members at the touch of a button - ideal if you are in a rush.

The applications also host the new 'Membership' area which allows users to either 'Join', 'Recommend a friend' or buy 'Family Membership'.

To download your free application, search for 'Priority Pass' at the iTunes App Store on your iPhone or iPad.

Mobile-friendly website

If you have mobile internet access from other phones, a new website can be found at www.prioritypass.com/mobile.

This mobile-friendly website allows you to perform quick and easy lounge searches by simply entering any three letter airport code (e.g. 'LHR' for London Heathrow Airport).

'Lounge Finder' – information direct to your mobile

If you don't have access to your lounge directory don't worry. With our 'Lounge Finder' service you can receive details of all available lounges instantly by simply texting us the airport code. It's that easy.

Text the three letter airport code to +44 7624 809977 and we'll send you details of available lounges by return text. e.g. text LHR for London Heathrow, or HKG for Hong Kong SAR International.

If you're unsure of the airport code check your ticket or ask a member of staff.
